PROGRAMME DELIVERY
SERVICE

“

90% of global senior executives and project management experts say good project management is key to delivering successful results and gaining a competitive edge”

Pulsant Professional Services has extensive expertise in managing successful technology programmes and projects from conception through to execution. We focus on what is required for your organisation to achieve and deliver its specific objectives. This professional service from Pulsant is your programme or projects 'Route to Green'. It provides you with access to leading programme and project management professionals, a structured management framework and SaaS project & portfolio management tool, enhancing performance and optimising the way your business delivers technology change.

Pulsant

Business Unlimited

Value Proposition

By drawing upon Pulsant's leading technology programme and project management professionals, we can provide a 'Route-to-Green' project roadmap supported by our Managing Principal Consultants who provide tangible recommendations and actions. This increases the probability of current and future programme and project success. Our aim is to drive better alignment between programme and project delivery, further improving the overall effectiveness and the accuracy of change activity. Our structured management framework and SaaS project & portfolio management tool delivers strong governance, improves visibility, management information and ensures accurate delivery, ultimately driving business value from your project portfolio.

Benefits

Consistency -

Use of an effective, best practice, cloud based PPM application;

Expertise -

Pulsant's best practice experience and customisable operating framework.

Scalability -

Flexible resource model that scales up and down with business demand.

Cost Efficiency -

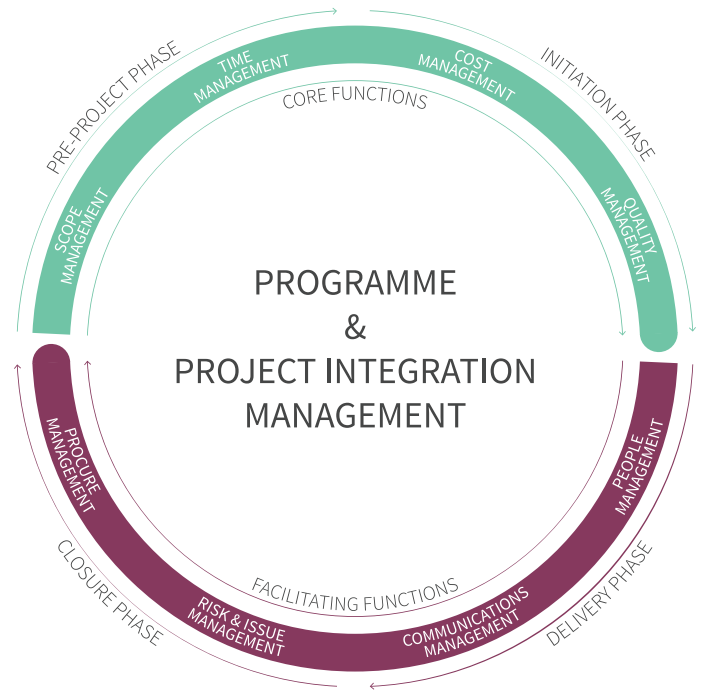

Reduce Total Cost of Service by out tasking to strategic specialist partner.

Continuity -

Service tailored to meet client needs, on fixed or T&M payment plan.

Measurable -

Engagement structured with agreed KPI's and clear fit for purpose processes.

Capabilities

Pulsant Professional Services provides specialist, flexible programme and project management professionals. We have developed our own delivery framework, with intellectual capital built from independent research, previous client engagements and real world delivery experience. The Service brings together the necessary skills and expertise required to deliver your programme or project, supported by our SaaS project & portfolio management tool. Our range of competencies include: project and portfolio management organisation maturity assessment, programme and project governance, Route to Green remediation, business case creation, planning, execution and reporting.

Outcomes

Industry research has identified that businesses are demanding a flexible, highly skilled and cost effective programme and project management professional service, which delivers change in a controlled manner. Pulsant's Programme Delivery Service enables you to have confidence in a supplier to take control of your project or portfolio activity, and improve the quality and accuracy of delivery through a structured operating framework. Our service is custom-designed to match your requirements, and our project management experts bring practical experience and depth of insight to help your organisation deliver a successful outcome.
