Pulsant is the UK's leading secure hybrid IT provider

But what does that actually mean? Simply put, we design, deploy and manage intelligent hybrid cloud platforms that enable your growth, spur innovation and support your success – while remaining secure and compliant. We understand the industry in which you operate, the importance of your customers, and the IT challenges you face.

What we DO

We use a dynamic combination of technology, resources and our expertise to deliver hybrid IT services, solutions and consultancy to our customers. Our aim is to optimise your IT, streamline your IT environment and deliver on your security and ongoing compliance needs.

What we DELIVER

We've been in business for more than 20 years, accumulating the knowledge, drive and technology to help you overcome your IT challenges and realise the business benefits of cloud. Our agile, end-to-end approach includes all aspects of managing multi-cloud environments, supported by strong IT consultancy services and dependable support.

Pulsant provides

We offer a full service portfolio to help you on your cloud journey.

- ✓ Managed cloud solutions
- ✓ Expert IT consultancy services
- ✓ Operational excellence
- ✓ Security and compliance
- ✓ Technology optimisation
- ✓ Enterprise-class infrastructure

“I have worked with Pulsant for over 10 years and firmly believe that they are the best supplier for businesses in our region.”

Iain Richardson
Infrastructure Manager, Ward Hadaway

Blending the best of people and technology through infrastructure, IT transformation and multi-cloud

Our in-house expertise and cloud consultancy, combined with leading edge technology solutions, means we're able to give you complete visibility and control over your entire IT environment.

TECHNOLOGY

Capacity to fulfill your business needs

Capacity & resources

From our extensive, high performing network, to our best-of-breed infrastructure, we have the resources to support your business and deliver on your requirements.

IT consultancy & analytics

Our consultancy team can guide you through your transformation journey and help you optimise your IT investment.

Cloud platforms & sourcing

We are cloud agnostic which means we have the skills to design and deliver the right solution for your organisation, whether that is public or private cloud, our own or sourced from the likes of Microsoft or AWS.

SERVICES

Delivered by our expert team

Manage

We provide expert hybrid IT management alongside end-to-end support with bespoke SLAs. This includes managed cloud, managed hosting and colocation.

Transform

We can help your business deal with IT-led change, from scoping out requirements, to implementing plans for transformation. This includes cloud migration, solution design and security.

Secure

Our security portfolio has been designed to offer threat management, edge to core protection, and managed security.

Comply

With our dedicated compliance dashboard, we deliver end-to-end IT tracking, monitoring and management of compliance, using hybrid operational analytics.

“I genuinely TRUST Pulsant with our infrastructure.”

Simon Knox

IT Director, Your World Recruitment Group

True Hybrid Azure Solutions

Pulsant's Managed Azure (public cloud and stack) is a powerful combination of Microsoft cloud technology and the assessment, consultancy, implementation and management services from Pulsant; all designed to help you in your transformation. Pulsant enables you to take full advantage of the opportunities of true hybrid cloud, including scalability, flexibility and consistency.
