

EDINBURGH MEDWAY DATA CENTRE

Why Pulsant?

Pulsant colocation provides a secure, reliable and more cost-effective way to ensure your infrastructure remains resilient, scalable and highly available. As the largest regional data centre provider in the UK, all data centres are strategically located, fully connected and cloud-ready, enabling you to take advantage of the same connections as a London data centre, with local benefits.

Why Edinburgh Medway?

Considered a strong contender for Europe's data centre capital, Edinburgh is home to all three of our Scottish sites. Our Medway facility is in Sighthill, to the West of central Edinburgh, and is ideal for high density deployments with 100GB of network options available. This facility interconnects with our nearby South Gyle facility for long haul UK and transatlantic connectivity. Easily accessible by road, rail and air, this high-spec Tier 3 site is pre-built and pre-configured for the rapid installation of your hardware, whether you require a quarter of a rack, multiple cages, dedicated suites or even dedicated offices.

LOCATION

ADDRESS

7 Bankhead Medway
Sighthill Industrial Estate
Edinburgh
EH11 4BY

POWER

Incoming supply

100% renewable energy
Multiple incoming feeds and transformers
Dual16A or 32A single phase and 3-phase up to 32A

Standby generator provision

Stand by power in 2N configurations

UPS provision

Redundant UPS capacity

ENVIRONMENT

Cooling

Cooling in an N+1 configuration via free cooling, adiabatic and chilled water systems

Fire protection

Double Knock and Vesda systems with IG55 and FM200 fire suppression

24 x 7 environment monitoring

ON-NET SERVICES

Connectivity

Multiple diverse-routed resilient internet site backhaul
Dark fibre connections available
1Mb – multi-Gb transit

Carriers

Telecommunications provision with 6 carriers: BT, Fluency, Virgin Media, Vodafone, Verizon, Zayo

SECURITY

CCTV

24 x 7 CCTV recording with 90-day retention

Access control

Swipe card entry with PIN, with minimum 12-month retention of access records
