NEWCASTLE CENTRAL DATA CENTRE

Why Pulsant?

Pulsant colocation provides a secure, reliable and more cost-effective way to ensure your infrastructure remains resilient, scalable and highly available. As the largest regional data centre provider in the UK, all data centres are strategically located, fully connected and cloud-ready, enabling you to take advantage of the same connections as a London data centre, with local benefits.

LOCATION

5 Bridge View, Stepney Lane
Newcastle upon Tyne
NE1 6PN

Why Newcastle Central?

Located in the heart of Newcastle, this purpose-built colocation facility is the gateway for connections into the North East and enables **high speed European and transatlantic connectivity**, due to its close proximity to the Euroconnect-1 international fibre landing station. Boasting **557 square meters** and **218 racks**, this city centre colocation facility is easy to access from road, rail, tram and air and is pre-built and pre-configured for the rapid installation of your hardware, whether you need part of a single rack or multiple racks in a secure cage.

Highlights

- Newcastle central delivers 0.5MW of IT power in one data hall
- Close to international fibre landing stations
- 24 x 7 environmental monitoring
- Dark fibre connections
