## SHEFFIELD DATA CENTRE

### Why Pulsant?

Pulsant colocation provides a secure, reliable and more cost-effective way to ensure your infrastructure remains resilient, scalable and highly available. As the largest regional data centre provider in the UK, all data centres are strategically located, fully connected and cloud-ready, enabling you to take advantage of the same connections as a London data centre, with local benefits.

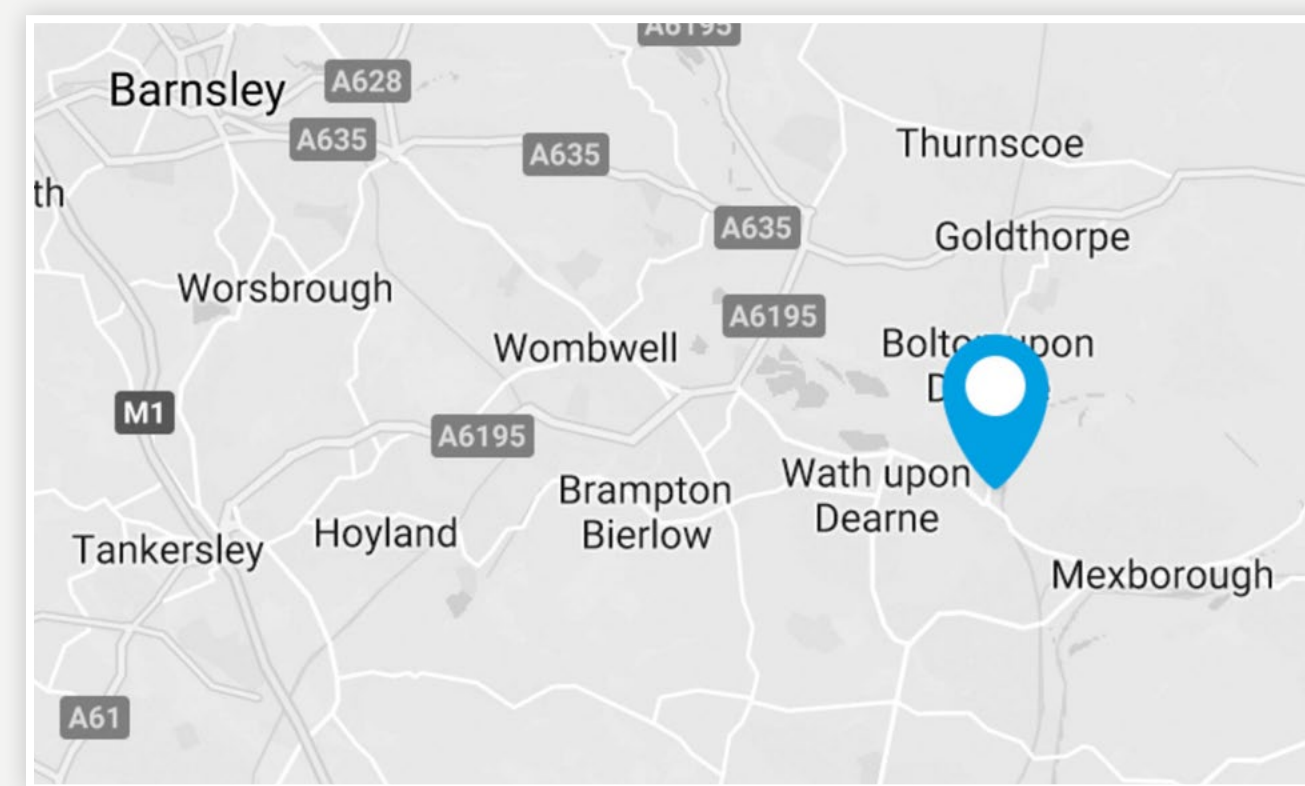

### Why Sheffield?

Ideally located for connections into Yorkshire, Manchester, the Midlands and beyond, our Sheffield colocation facility benefits from a recent investment in upgraded power generation, cooling, lighting and fire suppression systems. Easily accessible by road, rail and air, the data centre is pre-built and pre-configured for the rapid installation of your hardware, whether you require a single rack or your own dedicated private suite.

- Serving the Midlands, Manchester and Yorkshire regions
- 0.5 MW of IT power across 3 data halls, 660 SQM
- 24 x 7 environmental monitoring
- Dark fibre connections
